

## CNC-SEAL SONDERFERTIGUNG

### ÜBERSICHT STANDARDPROFILE

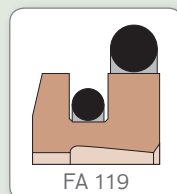

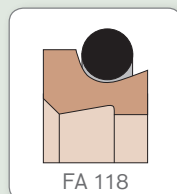

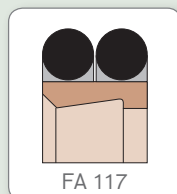

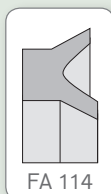

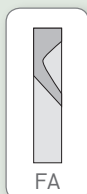

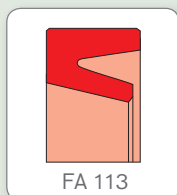

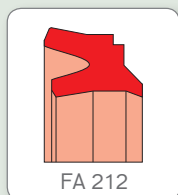

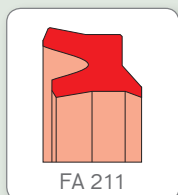

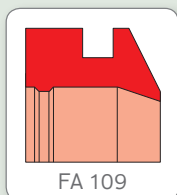

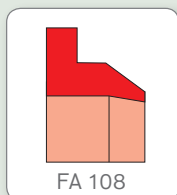

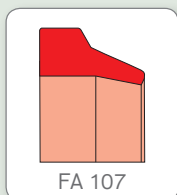

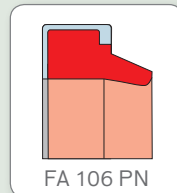

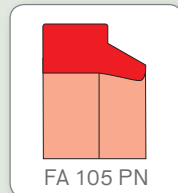

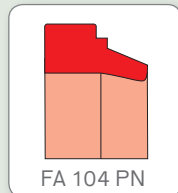

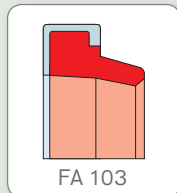

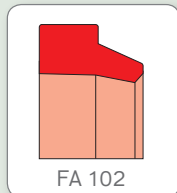

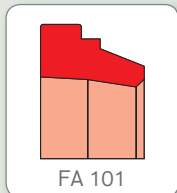

Felten CNC-Seal deckt mit über 150 Standardprofilen nahezu alle Dichtungstypen für fluidtechnische Anwendungen in der Hydraulik und Pneumatik ab. Sämtliche Profile können in beliebigen Abmessungen bis zu einem Durchmesser von 2500 mm gefertigt werden. Die Verwendung unterschiedlicher Werkstoffe ermöglicht eine optimale Abstimmung auf die Anwendung unter Berücksichtigung von Medium, Druck, Temperatur und Verfahrensgeschwindigkeit.
